

Update on Indiana Flood Relief

The Mission and Outreach team has given financial aid on behalf of ECC to support Cambridge City Christian Church in their flood relief efforts. On behalf of our church I visited there last week to hand deliver the check from ECC and get a glimpse of the supply and meal center they set up in a large building for urgent aid. They are supplying much-needed meals and goods to help with the cleanup and basic needs of the community. After the short-term goods and food needs have been met, they are going to set up a hardware supply hub (in this same space) to help with the rebuild of 174 homes that have been severely damaged. If the saints at ECC want to help further, either financially or physically to help with the efforts, you can access the Cambridge City Christian Church site on Facebook for real time needs for goods and boots on the ground.

Below are some photos of the supply center that I took last week.

Thanks to our Mission and Outreach team for recognizing the need and stepping up to help with our close neighbors in Indiana.

Jim Betar (on behalf of the Missions and Outreach team)

Tables for folks to have meals and supply shelves

Food to serve meals for those not able to cook and/or have food storage
